

# TALY Agrees To Swing Testing

There are many non-believers out there who never take the opportunity to grow, experiment, or learn. In response to The Golf Channel Discussion Board's desire for proof, I have agreed to have my swing evaluated by an accredited swing testing facility.

I am confident that once tested, the results will prove that a golfer can drive the golf ball 300 yards without swinging their arms.

Trust your Talynt® instead of your talent.
